Front-End Developer

EXPERIENCE

Glee Church, Bowie, MD— *Web Developer Intern*

June 2021 - PRESENT

I collaborated with the design team and other web developers to design a more effective wireframe and design for company website, application, and web application. I worked in a team to implement changes and additions. I developed web pages in HTML, CSS, JS, React, and Bootstrap. I created software documentation and wrote up product proposals.

Coach Nic DC, Washington, DC— *Web App Developer Intern*

June 2021 - September 2021

I deployed a web application through Heroku. I maintained and updated websites. I architected new web pages. I brainstormed ideas to bring more attention to the website. I briefed designers on graphics needed for the site. I created websites for clients using Wix. I created software documentation.

EDUCATION

E. L. Haynes, Washington, DC — *High School Diploma*

2011 - 2015

SkillCrush, Online — *Break Into Tech*

2019 - 2020

This online program focused on the basics of Web Development and Visual Design. I completed courses on HTML & CSS, Git & GitHub, JavaScript and JQuery, React, and Wordpress.

Udacity, Online —

2019 - 2020

I completed the courses: Intro to JavaScript, Responsive Web Design Fundamentals, and Responsive Images.
